

Environmental Policy

Automodular Corporation (“Automodular”) shall assemble products that meet or exceed Customer expectations while operating in an environmentally responsible manner.

Automodular’s Management Team is committed to implementing an effective environmental management system designed to accomplish our business objectives while fulfilling our responsibility as a good industrial neighbor.

We shall:

- Conduct business so that environmental challenges are managed as an integral part of current and changing business strategies;
- Analyze processes to determine and implement control methods ensuring that the potential for negative environmental impact is minimized;
- Communicate environmental issues throughout the organization;
- Comply with all Federal, Provincial and local environmental laws;
- Promote pollution prevention;
- Continually improve the environmental management system.
