

## **INTERIM MANAGEMENT DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS**

### **For the Six-Month Periods Ended June 30, 2016 and 2015**

This interim Management Discussion and Analysis (“MD&A”) is for the three and six-month periods ended June 30, 2016 and 2015 and should be read in conjunction with Automodular Corporation’s unaudited interim consolidated financial statements for the three and six-month periods ended June 30, 2016, prepared in accordance with International Financial Reporting Standards (“IFRS”). All dollar amounts in the interim consolidated financial statements and MD&A are shown in Canadian dollars unless otherwise indicated. References to “Automodular” or to “the Company” refer to Automodular Corporation and its direct and indirect subsidiaries unless the content indicates otherwise.

Following the expiry of the Company’s commercial agreement with Ford on December 23, 2014, Automodular ceased operations at its two facilities in Oakville, Ontario. During the first quarter of 2015 both facilities were returned to the respective landlords. As of the date of this MD&A, Automodular has no active operations. The Company has retained two salaried employees and one consultant.

On August 14, 2015, Automodular Corporation’s common shares were de-listed from the Toronto Stock Exchange (“TSX”). Effective August 17, 2015 the shares commenced trading on NEX, a separate board of the TSX Venture Exchange (“TSXV”). The shares are trading under the symbol “AM.H”.

### **SECOND QUARTER OVERVIEW**

Automodular reports a net loss of \$(0.3) million or \$(0.02) per share in the second quarter of 2016 compared to a net loss of \$(0.1) million or \$(0.00) per share in the same quarter of 2015. As noted above, Automodular had no active operations after the fourth quarter of 2014. The results for the second quarter of 2015 included exit costs relating to the closure of the Company’s Oakville facilities, ongoing administrative costs and a recovery of cost of sales as a result of the successful mitigation of previously recognized obligations related to the Oakville operations. Results for the current quarter of 2016 include administrative costs and costs associated with the ongoing legal claim against General Motors Company and General Motors of Canada Ltd. (“GM”). General and administrative expenses were lower during the second quarter of 2016 as compared to the same quarter of 2015 due to the rationalization of the Company’s cost structure over the previous twelve months.

### **FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES**

#### **Operating activities**

Net cash of \$1.2 million was used by operating activities in the current year-to-date period. In the same period of 2015, \$3.0 million in net cash was used by operating activities. As previously noted, Automodular’s operations ceased in December 2014.

#### **Investing activities**

Cash provided by investing activities of \$0.1 million was consistent in the six-month period ended June 30, 2016 when compared to the same period of 2015.

#### **Financing activities**

During the current quarter, Automodular repurchased 72,900 shares under a normal course issuer bid for total consideration of \$0.2 million, inclusive of fees and before taxes. On a year to date basis, Automodular repurchased 450,300 shares under its normal course issuer bid programs, compared to 110,600 shares purchased during the same period in 2015.

#### **Financing resources**

Automodular’s cash on hand at quarter-end totaled \$32.9 million compared to \$35.1 million at the end of 2015. Automodular’s cash on hand will allow it to address its ongoing needs, cover costs with respect to the GM litigation, and at the same time, still provide flexibility to fund potential new diversification initiatives.

## **Shareholders' equity**

Shareholders' equity decreased from \$36.1 million at December 31, 2015 to \$34.3 million at June 30, 2016 due to the re-purchase and cancellation of common shares as part of the normal course issuer bid and the loss generated during the current year-to-date period.

## **Recap and Outlook**

The forward-looking statements below are not historical facts but reflect the Company's current expectations regarding future results or events and are based on information currently available to management. Certain material factors and assumptions were applied in providing these forward-looking statements. Please review our forward-looking statement disclaimer at the end of this MD&A which includes a list of material factors and assumptions applied in providing these forward-looking statements.

Automodular's Q2 2016 results were in line with our expectations. We continue to expect our annualized cash expenditures for 2016 to be approximately \$2.0 million after tax with costs more skewed to the latter half of 2016. As previously noted, cash expenditures will fluctuate depending on the status of the GM litigation.

With respect to the GM litigation, we have been assigned a trial scheduling court date in early October. At that time, dates for pre-trial and trial will be scheduled by the Court based on court schedules and availability. Automodular will be seeking the earliest possible pre-trial and trial dates. Automodular will communicate with its stakeholders when it has something material to share in respect of this matter. There can be no assurance that the claim will be successful or that Automodular will recover any amounts from GM.

On April 13, 2016, following the expiry of its existing normal course issuer bid, the Company announced its intention to undertake a new normal course issuer bid. Under the terms of the new normal course issuer bid, the Company may acquire up to 821,491 of its common shares, representing 10% of the 8,214,913 common shares comprising Automodular's public float of common shares issued and outstanding as of April 4, 2016, as defined by the policies of the TSXV. The new normal course issuer bid commenced on April 13, 2016 and will terminate on April 12, 2017.

On June 28, 2016 the Company entered into an automatic share purchase plan ("ASPP") with its designated broker. The ASPP allows for purchases of common shares under the Company's current normal course issuer bid at times when the Company ordinarily would not be active in the market due to its own internal trading black-out periods or under applicable Canadian securities laws.

Our focus is unchanged. We are moving the GM litigation forward while actively containing costs. We continue to be open to considering transactional opportunities to leverage our public company listing and cash balances.

The Board of Directors has elected to not declare a dividend in this quarter. The Company will continue to revisit its dividend policy in conjunction with its go forward plans on a quarterly basis and will update its shareholders accordingly.
